Review: I am reviewing on behalf of my computer science-math-physics geek 16 year old son. I keep encouraging him to go to bed, get some sleep, and I keep finding him under the covers with a flashlight reading this book. What gives him away? The gasping in wonderment as he reads on way past bedtime, completely enthralled and held in the powers of this comedic...

Description: A book from the stand-up mathematician that makes math fun again!Math is boring, says the mathematician and comedian Matt Parker. Part of the problem may be the way the subject is taught, but its also true that we all, to a greater or lesser extent, find math difficult and counterintuitive. This counterintuitiveness is actually part of the point, argues...
